Q13        Plastic bag  
 Q14        Tennis shoe (left)  
 Q15-Q15A    Fragments of two shotgun shells  
 Q16        Cigarette butt

## Result of examination:

No hairs or fibers of value for comparison purposes were found on specimens Q13 and Q14.

Specimens Q15 and Q15A consist of the head portions of two shotshell casings, both of Remington-Peters manufacture. Specimen Q15 is of 12-gauge and Q15A is of 20-gauge. Specimen Q15 contains some very limited microscopic marks of possible value for comparison purposes. Specimen Q15A does not contain any microscopic marks of value for comparison purposes.

Both Q15 and Q15A are badly corroded with their original paper body's disintegrated. Also, the headstamps in Q15 and Q15A have not been used by Remington for at least 20 years.

If the Q15 shotshells were subjected exclusively to natural environments, the metallurgical characteristics exhibited are indicative of relatively lengthy exposure to such environments.

*b7c*  
 No serological analyses were conducted upon the Q16 cigarette butt due to the potentially more valuable latent fingerprint request.

Well you all afraid, you all upset  
Cause now of those cops have caught me yet  
I've struck again and didn't leave a clue  
Now the whole city doesn't know a bat's wing  
You finally found Debbie, her brain was still in it  
Keep looking you might find another child  
You think that the number stops at nineteen  
man, there are some things you haven't seen  
One night some kids got killed in a fire  
I struck the match, so the death toll is higher  
But you can't seem to catch me, I wonder why  
Thousands of you see me everyday when I pass by  
It's pathetic to know that I can get away

With first degree murder on any chosen day  
Politicians are warned as the plot thickens  
Leaders running around like headless chickens  
All different cops can't cooperate with the others  
You'll never catch me, you bumbling mothers  
Go back from the ridiculous to the sublime  
And you'll find that I've been with you everytime  
You'd better start looking before it's too late  
To there'll be another "50-48"  
So we'll leave you with this piece of evidence  
Don't do something stupid, like dust it for prints

## INFORMATIVE NOTE

Date 2/12/81

Re: ATKID  
OO: ATLANTA

On 2/10/81, the Atlanta Constitution Newspaper made available a letter from an anonymous individual purporting to be responsible for the child murders in Atlanta.

Original letter has been forwarded to Georgia State Crime Lab and copies have been furnished by facsimile to Behavioral Science Unit, FBI Academy, and Professor [REDACTED]. As a result of a review of this letter by Professor [REDACTED] and the Behavioral Science Unit, it has been concluded the letter is not from the killer but from an educated individual seeking notoriety.

Both Professor [REDACTED] and the Behavioral Science Unit recommend that no response be given to this letter through the newspaper in that such action would provoke a rash of similar type communications. Atlanta Bureau of Police Services will be advised on 2/12/81, of the above findings.

A facsimile copy of this letter is attached hereto.

CRIMINAL INVESTIGATIVE DIVISION

By attached teletype, Atlanta advises that on 1/23/81 the body of a young black male identified as Terry Lorenzo Pue, age 15, was found in Rockdale County, Georgia. Pue was last seen alive at 4:30 pm on 1/21/81 while enroute to a basketball game.

On 1/8/81, the Rockdale County Sheriff's Office received an anonymous call indicating that the body of Lubie Geter could be located on Sigmon Road. Two subsequent searches in the area described by the anonymous caller were conducted with negative results; however, Pue's body was located on Sigmon Road within a mile of the areas previously searched.

The Atlanta Division, in conjunction with the Atlanta Police Department, continue actively searching for Lubie Geter. In an additional investigative effort, a total of 15 separate shopping centers are under surveillance by four man teams to locate any Negro male and a young Negro male who may be in the area.

Pue has been added to the list of murdered children in the Atlanta area, bringing the total to 17 Black children which have disappeared in the last 19 months. Fourteen of the children have been found murdered and three remain missing.

SHE ADVISED PUE WAS IN A SPECIAL SCHOOL BECAUSE HE HAD SUFFERED A BRAIN INJURY WHEN HE WAS TWO YEARS OLD; HOWEVER, PUE DID NOT REGULARLY ATTEND THE SCHOOL SINCE HE DID NOT LIKE IT. SHE FURTHER ADVISED THAT SHE DID NOT REPORT HIM MISSING UNTIL SHE HEARD THE REPORTS ON THE RADIO OF A DEAD CHILD FOUND IN ROCKDALE COUNTY AND THE CLOTHING THE CHILD WAS WEARING MATCHED WHAT TERRY HAD BEEN WEARING WHEN HE LEFT HOME. SHE STATED TERRY OFTEN STAYED WITH A SISTER WHO LIVED IN EAST POINT, GEORGIA, AND SHE FELT THAT HE WAS STAYING WITH SUCH A SISTER, THAT IS WHY SHE DID NOT REPORT HIS DISAPPEARANCE EARLIER.

IT SHOULD BE NOTED THAT ON JANUARY 8, 1981, THE ROCKDALE COUNTY SHERIFF'S DEPARTMENT RECEIVED AN ANONYMOUS CALL FROM APPARENTLY A WHITE MALE WHO ADVISED THAT HE HAD PLACED THE BODY OF LUBIE JETER OUT ON SIGMON ROAD. THE CALLER THEN THREATENED TO PLACE ANOTHER BODY, OF A WHITE CHILD THIS TIME, OUT ON SIGMON ROAD BEFORE FEBRUARY 1. THE CALLER TOLD OF AN AREA ON SIGMON ROAD THAT SHOULD BE SEARCHED FOR JETER'S BODY. CALLER ALSO RELATED THAT HE HAD THREE OF THE MISSING CHILDREN STILL ALIVE. AN AREA ON SIGMON ROAD WAS SEARCHED~~S~~ SUBSEQUENT TO THIS ANONYMOUS CALL AND NOTHING FOUND. THE CALLER THEN CALLED BACK AND ADVISED THE ROCKDALE COUNTY SHERIFF'S DEPARTMENT THAT THE WRONG AREA HAD BEEN SEARCHED, SUBSEQUENT TO THIS CALL THE AREA DESCRIBED BY THE CALLER WAS SEARCHED WITH NEGATIVE RESULTS. TERRY PUE'S BODY WAS LOCATED ON SIGMON ROAD WITHIN A MILE OF THE AREAS PREVIOUSLY SEARCHED.

Re: ATKID

By attached teletype, Atlanta advises that on Friday morning, 1/30/81, a meeting was held in the Office of Maynard Jackson, Mayor, Atlanta, Georgia. In addition to Mayor Jackson, numerous city officials of Atlanta were present as well as Acting Deputy Attorney General (DAG) Renfrew and Ken Starr, Counsel to the Attorney General.

At the outset, Mayor Jackson indicated his pleasure with the cooperation he has received to date from the FEI toward solution of this investigation; however, Mayor Jackson requested assistance through the Federal Government in other areas relating to this investigation. He cited the areas of crime prevention, mental health, and funding of equipment as those areas in which he requests Federal Government assistance.

Acting DAG Renfrew informed the group that he was in Atlanta at the request of President Reagan and sees himself as a conduit for information which will be passed on to the Attorney General and subsequently, to other appropriate officials.

Following the 45 minute meeting, a brief press conference was held, after which Renfrew and Starr returned to Washington.

## Result of examination:

The results of the grouping tests conducted upon the human blood identified on Q12 were inconclusive.

No semen was identified on Q12. No analyses were conducted for the presence of saliva due to the location of Q12 when recovered.

There were no hairs of value for microscopic comparisons found on specimen Q12; however, one black head hair fragment of Negroid origin was found on this specimen. All foreign textile fibers found on specimen Q12 have been preserved. The elasticity of the waistband of this garment appears to be normal or near normal. Accordingly, there is no indication the garment was stretched beyond recovery limit.

No soil was found on or in the debris removed from specimen Q12 which could be compared with specimens K7 through K11.

11 Re Atlanta airtel to the Bureau, dated 12/5/80. //

Enclosed for the FBI Laboratory, under separate cover, are the following:

- (1) One (1) pair of female panties;
- (2) Five (5) soil samples from different locations concerning victim and possible suspect.

Also enclosed for the FBI Laboratory are the medical examiner's report on the blood type of victim, Angela Lanier, and one photograph of victim depicting panties stuffed in her mouth.

For the information of the FBI Laboratory, Angela Lanier was last observed at school on 3/4/80. On 3/10/80, her body was found in a wooded area about one mile from her residence. When the body was found, Lanier's hands were bound with a brown, two-strand, common electrical cord, which was submitted to the Laboratory for examination, via referenced communication. The body was also found with

a pair of female panties stuffed in the victim's mouth. There are obvious blood stains on the panties; however, the victim's mouth, at time of discovery, was partially eaten away by rodents. Medical examiner also stated that blood found on panties may have come from purge while Lanier was being strangled.

The enclosed panties were secured by the local Atlanta Police Department and submitted to the Georgia State Crime Lab. Contact with the Georgia State Crime Lab concluded that to date, no chemical examination of any kind has been performed on said panties.

Also, the enclosed soil samples, numbers one (1) through five (5), were taken from the following locations:

- (1) The sight in which the body was found;
- (2) The residence of the primary suspect;
- (3) A relative's house of the primary suspect;

(4 & 5) Area of two different houses where the victim was possibly held for a period of days.

REQUEST OF THE BUREAU

FBI LABORATORY:

The FBI Laboratory is requested to conduct the following examinations:

MICROSCOPIC ANALYSIS UNIT:

- (1) Conduct appropriate hair and fiber checks to determine existence of any such material.
- (2) Attempt to determine size of panties and possibility of them being stretched beyond normal limits.

AT 7A-1335 SF 5

## MINERALOGY AND METALLURGY UNIT:

Compare soil found in panties to those enclosed,  
(samples 1-4).

**SEROLOGY UNIT:**

Determine blood type contained on enclosed panties and the existence of other stains contained on panties, such as saliva and seminal fluids.

In addition to the above, the Lab is requested to perform any other scientific analysis deemed necessary.

Atlanta request that the above examinations in this major case be handled expeditiously.

EDWARD HOPE SMITH AND

KIDNAPING

Specimens received January 2, 1981

Q8 Tablecloth

Q9 Doily

## Result of examination:

A number of brown head hairs of Caucasian origin and black head and limb hair fragments of Negroid origin were found among debris collected from specimens Q8 and Q9. The aforementioned Caucasian head hairs are suitable for microscopic comparisons in the event a known head hair sample from a person of the Caucasian race is submitted to the Laboratory for this purpose. The aforementioned black head hair fragments of Negroid origin are too limited in size to be of further value.

Specimens Q8 and Q9 were examined for the presence of blood; however, none was identified.

ATKID,  
 MAJOR CASE #30;  
 KIDNAPING  
 OO: ATLANTA

The Atlanta Division has been conducting investigation for several months into the facts surrounding the murdered and missing children in Atlanta, Georgia. It is felt that in a majority of the cases, there is one subject utilizing one modus operandi to commit many of these homicides. Investigations by both the FBI and local agencies has failed to develop any clues or evidentiary items which would be traceable back to the subject of these homicides. Noting this, Atlanta is attempting to take some overt action [REDACTED]
